

We've had the decision from Red Shoot Camping Site this morning and due to the recent run of wet weather and excessive water still being held in the land we will not be able to use the camping site for event parking again this year. We had hoped for some dry weather over the last week but unfortunately the it didn't go in our favour. We want to be able to keep coming back year on year so will always support maintaining their picturesque park.

Not to worry there is ample parking at our offsite car park and will be operating a shuttle service from **Headlands Business Park, Ringwood BH24 3PB**. Feel free to park anywhere on the roads at the business park and then pick up the minibus opposite the garage on the A338. It's then a short 5 min drive into the site. We'd still really appreciate a donation to the Air Cadets 2515 Squadron as they will help us manage this.

There are 2 other closer forest car parks in walking distance but, they're small and will fill quickly. The event will not be responsible for these car parks in any way.

Please arrive 90mins prior to your race start time at the Headlands Business Park to ensure you have time to make the short shuttle journey and registration to ensure the event runs to schedule.

Shuttles start 90 minutes before the races so at 7.30am both Saturday and Sunday. The shuttles will run continuously back and forth throughout the day.

Spectators and Supporters:

Spectators & supporters are also able to use the shuttle service, however please be considerate at busy times prior to race starts if spectators and supporters could please give priority to runners to help ensure everyone is on the start line at the right time.

Bag Drop:

Bag drop will be in operation, this will be located next to registration.
